

THE UNDERGRADUATE PHYSIOTHERAPY RESOURCE BOOKLET – OLDER PEOPLE ORDER FORM

This resource is provided free of charge to undergraduate physiotherapists via the parent university libraries. It has been available since November 2005.

This resource booklet forms the basis from which undergraduate physiotherapists working with older people can source further information. This is different to the Resource Pack that has been distributed to universities and comprised of the contents of the Evidence-based Exercise Manual, the Outcome Measures Manual, and Physiotherapy for Older People Standards. This booklet is about physiotherapy and older people. It is not intended as a full, stand-alone text in itself, and hence, not fully referenced, as an academic script would be. It is, however, anticipated that the references and websites provided will be used in conjunction with the document to enhance understanding and learning.
